

- Available in yellow

DESCRIPTION

LoopMat is a mat including a magnetic loop for the reception of hearing-impaired people equipped with a hearing aid with a T position.

It connects to a magnetic loop amplifier such as the LH160 (part of our range) to help visitors with efficient hearing assistance.

CHARACTERISTICS

- 1 metre of cable 2x1mm² (varnished copper) with tinned extremities
- Dimensions 600x600mm
- Material : NBR - **Nitrile butadiene rubber**
- Fixation on the ground by 3M Adhesive applied to the surface of the LoopMat
- Indoor installation for counters and service points
- Works with our LoopHear products : LH102, LH150 and LH160.
- Weight : 3kg
- Available colours : black or yellow
